An Autonomous Institution | Affiliated to Anna University

**MEMORANDUM OF
UNDERSTANDING
BETWEEN
E.G.S. PILLAY ENGINEERING
COLLEGE
AND
ACTIVE SPATIAL SCIENCES
RESEARCH GROUP (ASSRG)**

Date: 14th August 2026

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

This Memorandum of Understanding (MoU) is made at E.G.S. PILLAY ENGINEERING COLLEGE, Nagapattinam on this day of 14th August 2026

Between

E.G.S. PILLAY ENGINEERING COLLEGE, Nagapattinam, Tamil Nadu – 611002, hereinafter referred to as the “FIRST PARTY”, which expression shall, unless repugnant to the context, include its successors and permitted assigns;

AND

ACTIVE SPATIAL SCIENCES RESEARCH GROUP (ASSRG), First Floor, First Street, SMESC Colony, North Extension, Trichy – 21, Tamil Nadu, hereinafter referred to as the “SECOND PARTY”, which expression shall, unless repugnant to the context, include its successors and permitted assigns.

The First Party and the Second Party are hereinafter individually referred to as a “Party” and collectively as the “Parties.”

1. PREAMBLE

The **FIRST PARTY**, E.G.S. Pillay Engineering College, is an institution committed to quality education, research, innovation, skill development, entrepreneurship and industry-oriented academic programmes. The institution promotes interdisciplinary education, emerging technologies, research activities, consultancy and academic–industry collaboration for the professional development of students and faculty members.

The **SECOND PARTY**, Active Spatial Sciences Research Group (ASSRG), is a professional and research-oriented organization comprising researchers and professionals working towards advancement and application of spatial sciences. ASSRG promotes the use of spatial data, geospatial technologies and related technologies for solving real-world problems and undertakes research, training, workshops, conferences, seminars, summer/winter schools and other professional development activities. The attached reference MoU similarly describes ASSRG's focus on spatial sciences, real-world applications, training and professional development.

Recognizing the mutual benefits of academic, research, technological and professional cooperation, the Parties agree to establish a collaborative framework through this Memorandum of Understanding.

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

2. PURPOSE

The purpose of this MoU is to establish a long-term academic, research, technological and professional collaboration between **E.G.S. Pillay Engineering College and ASSRG**.

The collaboration shall aim to:

1. Promote joint research and development activities in emerging and multidisciplinary areas.
2. Facilitate preparation and submission of joint research proposals to government, industry and funding agencies.
3. Enhance faculty expertise through advanced training, Faculty Development Programmes and professional development activities.
4. Develop students' technical, analytical, research and professional skills and improve their industry readiness.
5. Undertake joint consultancy, industrial and societal projects.
6. Provide research guidance and mentoring to students and faculty members.
7. Organize joint workshops, conferences, seminars, hackathons, technical events and knowledge-sharing programmes.
8. Facilitate technology development, technology transfer, intellectual property generation and commercialization.
9. Strengthen academic–industry linkages and create opportunities for collaborative innovation and entrepreneurship.

3. SCOPE OF COLLABORATION

The Parties agree to cooperate in the following areas:

3.1 Joint Research and Development

The Parties shall collaborate in research and development activities in areas of mutual interest, including but not limited to:

- Remote Sensing and Geoinformatics
- Geographic Information Systems (GIS)
- Spatial Data Science
- Artificial Intelligence and Machine Learning
- Earth Observation and Geospatial Applications
- Environmental Monitoring
- Climate Change and Disaster Management
- Water Resources and Hydrological Applications
- Agriculture and Natural Resource Management
- Urban and Regional Planning

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

- Coastal and Marine Applications
- Infrastructure and Smart Cities
- Digital Mapping and Spatial Analytics
- Surveying, GNSS and Geospatial Technologies
- Drone/UAV-based mapping and applications
- Digital Twins and 3D Geospatial Modelling
- GeoAI and intelligent spatial systems
- Any other emerging interdisciplinary research area mutually agreed upon by the Parties.

The Parties may jointly develop research themes, methodologies, datasets, prototypes, models, software tools, technical reports, publications and other research outputs.

3.2 Joint Research Proposals and Funding

The Parties shall encourage and facilitate the preparation and submission of joint research proposals to:

- Government funding agencies
- National and international research organizations
- Ministries
- Industry and corporate organizations
- CSR funding agencies
- State and Central Government schemes
- Academic and research institutions
- International agencies and development organizations.

Both Parties shall identify suitable funding opportunities and jointly prepare proposals wherever appropriate.

The Parties may jointly participate in funded projects, subject to the rules, regulations and funding conditions of the concerned funding agency.

Roles, responsibilities, budget allocation, principal investigators, co-investigators, intellectual property rights and ownership of project outputs shall be determined through a separate project-specific agreement wherever required.

4. FACULTY DEVELOPMENT AND ADVANCED TRAINING

The Parties shall collaborate in enhancing the technical and research capabilities of faculty members through:

1. Faculty Development Programmes (FDPs).
2. Advanced training programmes.
3. Hands-on technical training.

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

4. Short-term training programmes.
5. Certification programmes.
6. Research methodology programmes.
7. Training in GIS, Remote Sensing, AI/ML, GeoAI and spatial technologies.
8. Training in research tools, software and analytical platforms.
9. Capacity-building programmes for emerging technologies.
10. Expert lectures and invited talks.
11. Faculty exchange and knowledge-sharing programmes.
12. Collaborative training on industry-relevant technologies.

ASSRG may provide experienced researchers, professionals, trainers and subject experts for such programmes, subject to mutual agreement regarding programme structure, duration, logistics and financial terms.

5. STUDENT SKILL DEVELOPMENT AND INDUSTRY READINESS

The Parties shall jointly promote student skill development and employability through:

- Technical training programmes
- Hands-on laboratory training
- Industry-oriented certification programmes
- Geospatial and emerging technology training
- Skill-based workshops
- Internship opportunities
- Project-based learning
- Industry-oriented mini-projects and major projects
- Hackathons and innovation challenges
- Technical competitions
- Career guidance and awareness programmes
- Expert lectures and interaction with professionals
- Problem-solving activities based on real-world datasets
- Portfolio development and project demonstrations
- Entrepreneurship and innovation programmes.

The collaboration shall focus on bridging the gap between academic learning and professional requirements. ASSRG may support students by providing domain experts, technical mentors, training resources and exposure to real-world applications.

6. JOINT CONSULTANCY AND INDUSTRIAL PROJECTS

The Parties may jointly undertake consultancy and industrial projects based on mutually agreed terms.

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

Such projects may include:

1. Geospatial surveys and mapping.
2. GIS database development.
3. Remote sensing-based analysis.
4. Environmental and natural resource assessment.
5. Infrastructure mapping.
6. Land-use and land-cover analysis.
7. Disaster risk and vulnerability assessment.
8. Water resources and watershed studies.
9. Coastal and marine mapping.
10. Urban and regional spatial analysis.
11. Drone/UAV-based surveys.
12. Spatial decision-support systems.
13. AI/ML-based geospatial applications.
14. Digital mapping and spatial analytics.
15. Any other consultancy project mutually agreed upon.

Project-specific responsibilities, professional fees, cost sharing, deliverables, timelines, ownership and intellectual property shall be mutually decided before commencement of each project.

7. STUDENT AND FACULTY RESEARCH GUIDANCE

The Parties shall facilitate research guidance and mentoring for students and faculty members.

ASSRG professionals/researchers may provide expert guidance for:

- Undergraduate projects
- Postgraduate projects
- Research proposals
- Research methodology
- Data collection and processing
- GIS and Remote Sensing analysis
- AI/ML applications
- Spatial modelling
- Statistical analysis
- Research paper preparation
- Technical report preparation
- Patent and intellectual property development
- Dissertation/thesis guidance
- Conference paper preparation
- Journal publication support.

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

Faculty members of E.G.S. Pillay Engineering College and experts from ASSRG may jointly mentor students and researchers wherever appropriate.

8. JOINT WORKSHOPS, CONFERENCES AND TECHNICAL EVENTS

The Parties shall jointly organize academic and professional events including:

- Workshops
- Conferences
- Seminars
- FDPs
- Training programmes
- Webinars
- Technical symposiums
- Hackathons
- Mapathon
- Geospatial competitions
- Research conclaves
- Innovation challenges
- Expert lectures
- Summer/winter schools
- Awareness programmes
- Industry interaction programmes
- Technical exhibitions and demonstrations.

The topics, duration, resource persons, participation, registration fee, certification, venue, logistics and financial arrangements shall be mutually decided for each event.

9. TECHNOLOGY TRANSFER AND COMMERCIALIZATION

The Parties shall encourage the development, transfer and commercialization of technologies, products and solutions arising from collaborative activities.

Possible areas include:

1. Geospatial software and applications.
2. GIS-based decision-support systems.
3. AI/ML-based spatial solutions.
4. Remote sensing applications.
5. Digital mapping solutions.
6. Environmental monitoring systems.
7. Smart infrastructure applications.
8. Spatial databases and analytical tools.
9. Research prototypes.
10. Innovative products and services.

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

Where a jointly developed technology has commercial potential, the Parties may explore appropriate mechanisms for technology transfer, licensing, incubation, commercialization and entrepreneurship. Ownership, licensing, revenue sharing and intellectual property rights shall be determined on a project-specific basis through a separate written agreement.

10. ACADEMIC–INDUSTRY LINKAGES

The Parties shall work together to strengthen academic–industry interaction through:

- Industry-oriented curriculum inputs
- Identification of emerging technology requirements
- Industry expert lectures
- Industrial training
- Internships
- Industry-sponsored projects
- Consultancy
- Collaborative R&D
- Industrial visits
- Placement-oriented skill programmes
- Professional certification programmes
- Industry problem statements for student projects
- Industry–academia research programmes
- Entrepreneurship and startup support.

The Parties may jointly identify industries and organizations for developing long-term academic–industry partnerships.

11. RESPONSIBILITIES OF THE FIRST PARTY

E.G.S. PILLAY ENGINEERING COLLEGE

The First Party shall, subject to availability of resources and institutional policies:

1. Identify academic, research and training requirements.
2. Nominate faculty members and students for collaborative programmes.
3. Provide necessary institutional coordination.
4. Provide suitable infrastructure for mutually agreed programmes.
5. Facilitate access to available institutional facilities wherever appropriate.
6. Encourage faculty and students to participate in joint research and technical activities.
7. Facilitate interaction with relevant academic departments and research centres.
8. Support preparation of joint research proposals.
9. Facilitate academic and administrative approvals wherever required.
10. Nominate a faculty coordinator for implementation of this MoU.
11. Provide necessary administrative support for jointly organized programmes.
12. Support dissemination of collaborative research and technical activities.

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

12. RESPONSIBILITIES OF THE SECOND PARTY

ACTIVE SPATIAL SCIENCES RESEARCH GROUP (ASSRG)

ASSRG shall, subject to mutual agreement and availability of resources:

1. Provide researchers, professionals, trainers and subject experts for agreed activities.
2. Develop and deliver technical training programmes.
3. Support joint research and development activities.
4. Assist in preparation of research proposals and funding applications.
5. Provide expert guidance for student and faculty research.
6. Support industry-oriented skill development.
7. Facilitate technical workshops, seminars, conferences and FDPs.
8. Provide access to relevant technical knowledge, training materials and resources wherever possible.
9. Support consultancy and industrial project activities.
10. Facilitate professional and industry interaction wherever feasible.
11. Provide mentoring for innovation, technology development and commercialization.
12. Nominate an ASSRG coordinator for implementation of this MoU.

13. RESOURCES AND FACILITIES

The Parties shall provide resources required for collaborative activities based on mutual agreement.

E.G.S. Pillay Engineering College may provide:

- Classrooms
- Laboratories
- Computer facilities
- Institutional infrastructure
- Administrative support
- Faculty and student participation
- Relevant institutional resources.

ASSRG may provide:

- Expert trainers and researchers
- Technical resource persons
- Training materials
- Research guidance
- Relevant technical resources
- Professional expertise
- Industry connections wherever available
- Software/tools/resources wherever legally and institutionally permissible.

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

Specific resource requirements for individual programmes shall be decided mutually.

14. WORKING PATTERN AND FINANCIAL ARRANGEMENTS

The Parties shall mutually determine the working pattern for each collaborative activity.

For workshops, training programmes, FDPs, conferences, consultancy projects, certification programmes and other activities, the financial terms, professional fees, registration fees, resource-person charges, travel, accommodation, logistics and other expenses shall be decided mutually before commencement of the activity. Unless otherwise agreed in writing, this MoU shall not by itself create any financial obligation on either Party. Any project involving financial commitment shall be governed by a separate written agreement, work order, project proposal or mutually approved document.

15. INTELLECTUAL PROPERTY RIGHTS

Intellectual Property Rights (IPR) arising from collaborative research, consultancy, technology development or other joint activities shall be governed by mutual agreement between the Parties. The ownership of patents, copyrights, software, datasets, designs, models, reports and other intellectual property shall be determined based on the contribution of each Party and applicable institutional and funding-agency policies. Neither Party shall commercially exploit jointly developed intellectual property without obtaining appropriate written consent from the other Party.

16. PUBLICATIONS AND RESEARCH OUTPUTS

The Parties shall encourage joint publication of research findings in reputed journals, conferences, books, technical reports and other scholarly platforms. Authorship shall be determined based on actual intellectual and research contributions. The Parties shall acknowledge each other's contribution and institutional affiliation in publications arising from collaborative activities, wherever appropriate. Any confidentiality restrictions imposed by an industry partner or funding agency shall be respected.

17. CONFIDENTIALITY

Both Parties agree to maintain confidentiality regarding confidential technical, commercial, and institutional or research information received from the other Party. Confidential information shall not be disclosed to third parties without prior written consent, except where disclosure is required by law, regulatory authority or funding-agency requirements. This obligation shall survive the termination or expiry of this MoU for a reasonable period as mutually agreed.

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

18. COORDINATION AND IMPLEMENTATION

Each Party shall nominate one authorized coordinator for effective implementation of this MoU.

First Party Coordinator:

Name: Dr. Dhayalan V

Designation: Associate Professor

Department: Department of Civil Engineering

Email: dhayalan@egspec.org

Contact: +91 8072127062

Second Party Coordinator:

Name: Mr. Jyothish Jayan

Designation: Managing Director, ASSRG

Email: jayanjyothish2@gmail.com

Contact: +91 80755 14808

The coordinators shall communicate regularly and identify suitable opportunities for collaborative activities.

19. EVALUATION AND MONITORING

The Parties shall periodically review the progress of activities undertaken under this MoU.

The review may consider:

- Number of joint research activities
- Research proposals submitted
- Funded projects obtained
- Faculty trained
- Students trained
- Workshops and conferences conducted
- Consultancy projects undertaken
- Publications generated
- Patents/IPR generated
- Industry collaborations established
- Internships and project opportunities created
- Technologies developed or transferred
- Other measurable outcomes.

The Parties may conduct periodic review meetings to assess progress and identify new areas of collaboration.

Active Spatial Sciences Research Group (ASSRG)

NBA Tier I Accreditation for all Eligible Programs | NAAC Grade A++
An Autonomous Institution | Affiliated to Anna University

20. NON-EXCLUSIVITY

This MoU is non-exclusive. Either Party may enter into similar agreements or collaborations with other institutions, organizations, industries or research bodies, provided such collaborations do not conflict with the obligations undertaken under this MoU.

21. LIMITATION OF COMMITMENT

This MoU represents the mutual intent of the Parties to collaborate in the areas specified herein. Nothing in this MoU shall be construed as creating a partnership, joint venture, agency or employer–employee relationship between the Parties. Neither Party shall have authority to legally bind the other Party unless specifically authorized in writing.

22. DURATION

This MoU shall remain valid for a period of **Five (5) Years** from the date of execution.

The MoU may be renewed or extended by mutual written consent of both Parties.

Any modification, amendment or extension shall be made in writing and signed by authorized representatives of both Parties.

23. TERMINATION

Either Party may terminate this MoU by providing **one month's prior written notice** to the other Party. Termination shall not affect activities, projects, research proposals, consultancy assignments or other commitments already initiated, unless mutually agreed otherwise. The Parties shall make reasonable efforts to complete or appropriately close ongoing activities.

24. DISPUTE RESOLUTION

Any dispute or difference arising from the implementation of this MoU shall first be resolved amicably through consultation between the authorized representatives of the Parties. If the matter cannot be resolved through mutual consultation, the Parties may adopt an appropriate mechanism as mutually agreed upon.

25. AMENDMENTS

Any amendment, modification or addition to this MoU shall be made only with the mutual written consent of both Parties.

Such amendments shall form an integral part of this MoU.

26. GENERAL PROVISIONS

1. This MoU represents the mutual understanding between the Parties concerning the areas of collaboration identified herein.
2. Specific projects may be governed by separate agreements containing detailed technical, financial and legal terms.
3. Both Parties shall comply with applicable laws, regulations and institutional policies.
4. Neither Party shall use the name, logo or identity of the other Party for commercial or promotional purposes without prior written approval.
5. Both Parties shall endeavor to maintain professional standards and academic integrity in all collaborative activities.

27. SIGNATURE AND ACCEPTANCE

IN WITNESS WHEREOF, the authorized representatives of **E.G.S. PILLAY ENGINEERING COLLEGE** and **ACTIVE SPATIAL SCIENCES RESEARCH GROUP (ASSRG)** have executed this Memorandum of Understanding on the date mentioned above.
