

AUTHOR PROFILE

Mrs. S. Latha is currently serving as an Assistant Professor in the Department of Electrical and Electronics Engineering at E.G.S. Pillay Engineering College, Nagapattinam. She obtained her Bachelor's degree in Electrical and Electronics Engineering from Mysore University in 1997 and her Master's degree in Applied Electronics from Sathyabama University in 2009. She is a Life Member of the Indian Society for Technical Education (ISTE). With around 20 years of teaching experience, she has contributed to the academic and research fields through five papers published in international conference proceedings, two papers presented at national conferences, and two journal publications. Her areas of academic and research interest include Microprocessors, Embedded Systems, Electromagnetic Fields, Digital Electronics, and related areas of Electrical and Electronics Engineering.

Mrs. M. Porkodi is currently serving an Assistant Professor in the Department of Electrical and Electronics Engineering at E.G.S. Pillay Engineering College, Nagapattinam. She obtained her Bachelor's degree in Engineering from Government College of Engineering, Tirunelveli, in 1996 and her Master's degree in Energy Engineering from College of Engineering, Guindy, in 2006. With around 25.5 years of teaching experience, she has made valuable contributions to the academic field through her teaching and research activities. She has published 10 research papers in various conferences and journals. Her academic and research interests include Energy Engineering, Renewable Energy, Energy Management, Electrical Systems, and related areas of Electrical and Electronics Engineering.

Mrs. S. Supriya Sivamaheswari is an Assistant Professor in the Department of Electrical and Electronics Engineering at E.G.S. Pillay Engineering College. She holds a Master of Engineering (M.E.) degree specializing in Power Electronics and Drives from the esteemed College of Engineering, Guindy (CEG), Anna University Main Campus, Chennai. She completed her Bachelor of Engineering (B.E.) from Sri Sairam Institute of Technology in 2016, where she demonstrated exceptional academic excellence, graduating with an aggregate of 88% and achieving the 33rd University Rank among all Anna University affiliated engineering colleges. Her core academic and research interests lie in the domains of power electronics, electric drives, and sustainable energy applications. Dedicated to academic excellence, she is actively involved in classroom teaching, student mentorship, and contributing to institutional research goals. Her areas of academic and research interest include Embedded Systems, Power quality, Electromagnetic Fields, Digital Electronics, and related areas of Electrical and Electronics Engineering.
