Cognizant Technology Solution,
Chennai.

Sub: Requisition to depute **"Mr.Anbananthan, Senior Associate in DEVOP's"** for CSI sponsored **one day workshop – Reg.**

Respected Sir / madam,

I am very glad to share that, we are going to organize **CSI** sponsored one day workshop on **"Hands-on Training in DEVOP'S Tools"** which is scheduled on 04.11.2025. In connection with this, it will be a great pleasure for us to depute **"Mr.Anbananthan, Senior Associate in DEVOP's"** to address the title on **"Hands-on Training in Devop's Tools"**.

Thanking you,

your's faithfully

(Dr. R.Manivannan)

To

Dr. R. Manivannan,
Head of the department,
Department of CSE,
E.G.S. Pillay Engineering College,
Nagapattinam.

Respected Sir,

Sub: Acceptance of resource person – CSI sponsored one day workshop – Reg.

I am very happy to see your letter about to deliver a lecture on “Hands-on Training Workshop in Devop’s Tool” as a resource person to your students. My Senior Principal Engineer gave permission to me for this workshop. From this letter I confirm my present on 04.11.2025 on your college.

Thanking you,

Your's Faithfully

(Anbananthan.S)

Date: 18.10.2025

Department of Computer Science and Engineering

CSE/2025-2026/ODD/OCT/CIRCULAR-11

DEPARTMENT CIRCULAR DATED 29.10.2025

To enhance the practical Skills and technical abilities of our CSE students in modern Devop's Tools Practices, we are organizing a "Hands-On Training Workshop in DEVOP'S tools" on 04.11.2025.

OBJECTIVES

The objective of this hands-on workshop in DEVOP'S Tool is to provide participants with practical exposure to Devop's tools and technologies used in modern software development and deployment. To Help Participants understand the Devop's lifecycle, including continuous integration, continuous delivery and continuous monitoring. By the end of the workshop, participants gain hands-on experience in automating software build, testing deployment processes and prepare for industry-oriented Devop's practices.

Day	Participants	Event	Resource Person
04.11.2025	III CSE Students	- Devop's concepts and Workflow - Version Control using Git and GitHub - Continuous Integration - Application Deployment & Monitoring Practices	Mr. Anbananthan.S Senior Associate in Cognizant Technology Solution, Chennai

SUMMARY

Azure Devops
Engineer

Design and implement Devops strategies
Manage Azure Devops Environment
Automation and CI/CD Pipelines
System Monitoring & Performance
Security & Compliance

PROFESSIONAL EXPERIENCE

JAN 2022-Till
date

Cognizant Technology Solution

Azure Devops Engineer

- CI/CD Pipeline creation and configuration
- Devops setup and agent creation
- Github version control management
- AKS cluster creation and POD management
- Azure App service creation and management

Jul 2020-DEC
2021

Tech Lead (Internal Project)

- IIS Site hosting and management
- Sharepoint online site migration
- Onprem windows server management

Aug 2016-Jun
2020

Tech Lead (ATG Ecommerce Project)

- Oracle ATG Ecommerce site management
 - Endeca Batch creation and support
 - Akamai & Apigee configuration
 - GCP Migration and Net Diagnostics tool configuration
-

SKILLS & ABILITIES

- Azure Cloud Admin activities such as Site hosting & configuration
 - CI/CD Pipeline creation and configuration
 - Azure microservices management
 - Oracle ATG DEV Support
 - Sharepoint online management
 - Windows server administration
-

CERTIFICATIONS

ORACLE Certified in Java Enterprise Apps
NIIT Certified Java Enterprise Apps – Level 2
ORACLE Certification in Oracle Database 12C SQL Fundamentals

Hands-on Workshop in DEVOP'S Tools

RESOURCE PERSON

Mr.S. Anbananthan

Senior Associate in DEVOP'S
Cognizant Technology Solutions, Chennai

- Date & Time: 04.11.2025
9.30 AM – 04.00 PM
- Venue: CC1 & CC2 LAB

About This Workshop

This hands-on workshop in DevOps Tools aims to provide participants with practical exposure to modern tools and technologies used in software development and deployment. The session helps participants understand the DevOps lifecycle, including Continuous Integration (CI), Continuous Delivery (CD), and Continuous Monitoring.

By the end of the workshop, participants will gain hands-on experience in automating software build, testing, and deployment processes using GitHub, Jenkins, and other industry-relevant tools. This workshop prepares students for industry-oriented DevOps practices and enhances their capability to handle real-world project automation effectively.

ABOUT THE COLLEGE

- E.G.S. Pillay Engineering College is a self – financing educational institution situated in Nagapattinam, Nagapattinam District. EGSPEC is the vision of Chevalier. Dr.G.S.Pillay, whose determination and dynamism made possible the realization of this institution of excellence.
- Established in the year 1995 with 3 courses CSE, Mechanical and Chemical, affiliated to Bharathidasan University. (First in Nagapattinam district)
- Established by the G.S. Pillay & Sons Charitable and Educational Trust, Nagapattinam.
- Affiliated to Anna University, Chennai in the year 2002.
- UGC Recognized institution under 2(f) and 12(B)
- Recognized Research Centre for Mechanical Engineering, EEE, ECE, CSE and Civil Departments by Anna University, Chennai for doing Ph.D./M.S.(By Research).
- Nodal Centre for QIC of Anna University, Chennai
- Associate Member of ICTACT, Govt. of Tamilnadu for Industry Institute Interaction
- NBA Accredited for 6 Programmes upto 30.06.2022 by NBA, New Delhi
- Autonomous status from 2017 onwards approved by UGC and Anna University, Chennai
- NIRF Ranking top 200 in India in 2018.
- Now, 8 UG Courses, PG Courses and 6 Ph.D. Recognized Research Departments

Course Objectives:

- To explain the concept of containerization and its benefits.
- To install and configure Docker on various operating systems.
- To create, manage, and delete Docker images and containers.
- To write Docker files to build custom images and use Docker Compose to manage multi-container applications.
- To understand Docker networking and storage concepts, including volumes and persistent data.
- To deploy and manage containerized applications in various environments.
- To understand Docker security best practices and implement secure containerization.

Course Outcomes:

- CO1: Make use of the fundamentals of containerization and how docker simplifies application deployment
- CO2: Demonstrate the ability to create, run and manage docker containers using essential commands.
- CO3: Build, customize and optimize Docker images for various applications

Topics Included:

- 1.Introduction
- 2.Managing docker containers
- 3.Inputs/Outputs
4. Managing docker images
5. Building docker images
6. Security considerations
7. The ecosystem & the future

ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering was established at Edayathangudy G.S. Pillay Engineering College in the academic year 1995-1996. The department's goal is to meet the demand for Computer Engineers in software companies, banking sectors, and private sectors. The department has been offering the UG program since 1995 and the PG program since 2012. It has a Recognized Research Centre for PhD/M.S. (By Research) and obtained Permanent Affiliation from Anna University in 2014-15. The department was accredited by NBA in 2016 and achieved NBA-Tier 1 accreditation in 2021.

The department boasts highly qualified and experienced faculty members, and has well-equipped infrastructure including seven laboratories for practical work, an additional lab for hardware and software, and a research lab for research activities. We provide Programming Skill Development Training using tools like E-Box, Skillrack, Terv, Dataerdz, AWS, and Android Development Kit. The department has also received funding from TNSCST under Young Scientist Research Fellowship and Computer Skills for School Students.

The department has established the Computer Engineers Association (CEA) to promote student talent and development. We organize international and national conferences through the association. Notably, we conducted the ACES-ACM-IIT Delhi India's Biggest Networking Championship Zonal Level Workshop cum Competition, with winners participating in the final competition in Delhi. The department offers various industry-oriented training courses, value-added courses, and competitive exam training (GATE, GRE, TOEFL, etc.). We also run social programs like Computer Literacy Awareness Programs for government employees, the public, and school students. Our students have excelled in co-curricular and extra-curricular activities, including participation in the Guinness Record for the Biggest Software Development Project at Kaashiv Infotech, Chennai.

DEVOPS OVERVIEW

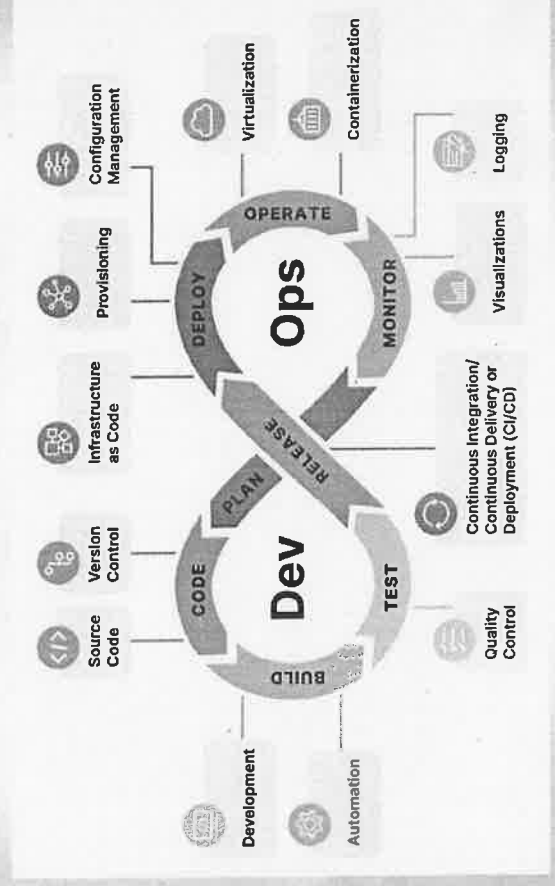

Prepared by
Anbananthan S,
Sr.Associate,
Cognizant Technologies.

What's DevOps

DevOps is a way of working that brings together software development (Dev) and IT operations (Ops) teams to build, test, and release software more quickly and reliably

Devops Practices

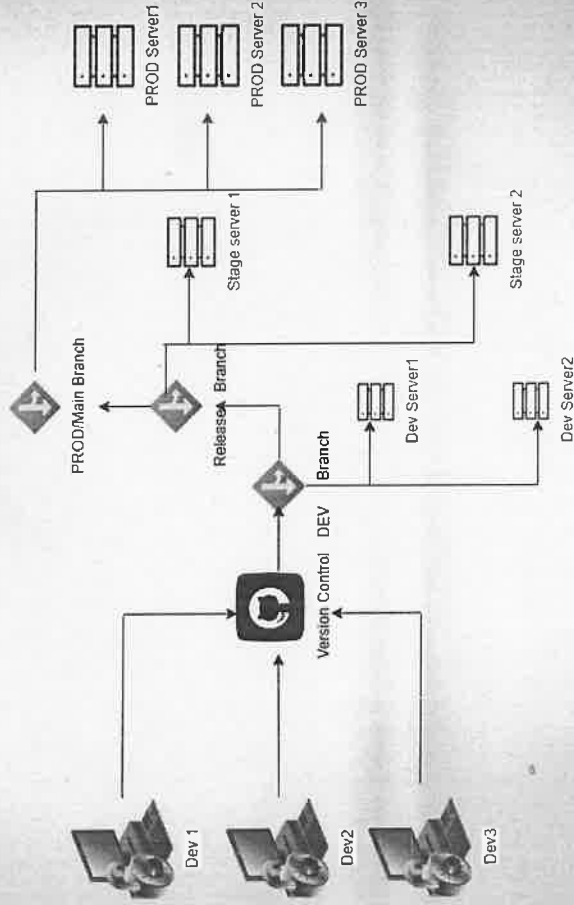

Cloud Platform Providers

- Google Cloud
- Microsoft Azure
- AWS (Amazon)

Type of cloud services

- IAAS (Infrastructure As A Service)
- PAAS (Platform As A Service)
- SAAS (Software As A Service)

Deployment Flow

Version Control

Git: A widely used, free and open-source distributed version control system.

GitHub: A popular cloud-based platform for hosting Git repositories.

GitLab: A complete DevOps platform that includes CI/CD and source code management.

Bitbucket: A Git-based repository hosting service from Atlassian.

Continuous Integration/Continuous Delivery (CI/CD)

Jenkins: An open-source automation server for building, testing, and deploying applications.

GitLab CI/CD: Integrated into the GitLab platform for automating CI/CD pipelines.

Bamboo: A CI/CD server from Atlassian.

GitHub Actions: A CI/CD service built directly into GitHub.

Configuration Management

Ansible: An open-source tool for automating IT tasks, including configuration management.

Puppet: A tool for automating and managing the configuration of your infrastructure.

Chef: An automation tool for configuration management, deployment, and more.

Containerization & Orchestration

Docker: A platform for developing, shipping, and running applications in containers.

Kubernetes: An open-source system for automating the deployment, scaling, and management of containerized applications.

Monitoring and Logging

Prometheus: An open-source monitoring and alerting system.

Nagios: A monitoring solution to check the health of systems, networks, and applications.

Splunk: A platform for searching, monitoring, and analyzing machine-generated big data.

AppDynamics, NetDiagnostics, Apigee Monitoring

Infrastructure as Code (IaC)

Terraform: An open-source tool for provisioning and managing infrastructure in a declarative way.

AWS Cloud Formation: A service for modeling and setting up your AWS resources.

Testing and Quality Assurance

Selenium: An open-source framework for automating web browsers.

JMeter: A tool for load and performance testing.

Appium: An open-source tool for automating native, mobile, and hybrid applications

Neoload: Licensed tool used specifically for performance testing

MAPPING WITH PO's & PSO's

Outcome of the event:

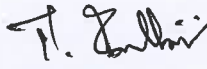

At the end of this event, students can able to

CO Number	Competency	Cognitive level
CO1	Make use of the fundamentals of Devop's and usage of key Devop's tool.	Apply
CO2	Demonstrate the ability to have skills in version control, continuous integration using Git, GitHub and Jenkins.	Apply
CO3	Implement and Manage automated build, deployment and monitoring process using Devop's tool chain.	Apply

COs Vs POs Matrix

(Support provided by COs to POs: L = lightly(1); M = Moderately (2); S = Substantially (3))

CO/PO	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PSO1	PSO2
CO1	3	2	2	-	-	-	-	-	-	-	-	-	3
CO2	3	3	3	3	3	-	-	-	-	-	-	-	3
CO3	3	3	3	3	3	-	-	-	-	-	-	-	3

(AUTONOMOUS)**

(Accredited by NAAC with 'A++' grade || Recognized by DSIR || Recognized by UGC 2(f) & 12 (B)|| Provisional Accreditation in NBA T1 for B.E. – CIVIL, CSE, ECE, EEE, MECH & B.Tech – IT || Approved by AICTE, New Delhi & Affiliated to Anna University, Chennai)

TEST QUESTIONS

Each Question carry two marks

1. What does DevOps primarily aim to achieve?

- A) Faster hardware upgrades
- B) Integration of software development and operations
- C) Data storage optimization
- D) Network management

Answer: B) Integration of software development and operations

2. Which of the following is NOT a cloud platform provider?

- A) Google Cloud
- B) Microsoft Azure
- C) AWS
- D) Oracle Forms

Answer: D) Oracle Forms

3. What does IaaS stand for?

- A) Infrastructure as a Software
- B) Infrastructure as a Service
- C) Information as a System
- D) Internet as a Service

Answer: B) Infrastructure as a Service

4. Which of the following is an example of PaaS?

- A) Google App Engine
- B) Amazon EC2
- C) Microsoft Word

D) Dropbox

Answer: A) Google App Engine

5. Which tool is most commonly used for version control?

A) Docker

B) Jenkins

C) Git

D) Puppet

Answer: C) Git

6. GitHub is best described as:

A) A cloud-based Git repository hosting service

B) A testing framework

C) A monitoring tool

D) A CI/CD pipeline tool

Answer: A) A cloud-based Git repository hosting service

7. What does CI/CD stand for?

A) Cloud Integration/Continuous Delivery

B) Continuous Integration/Continuous Delivery

C) Continuous Improvement/Code Deployment

D) Code Integration/Continuous Debugging

Answer: B) Continuous Integration/Continuous Delivery

8. Jenkins is used for:

A) Version control

B) Continuous integration and delivery

C) Configuration management

D) Monitoring

Answer: B) Continuous integration and delivery

9. Which CI/CD tool is built directly into GitHub?

A) GitHub Actions

B) GitLab

C) Bamboo

D) Jenkins

Answer: A) GitHub Actions

10. Which tool is used for configuration management?

A) Docker

B) Jenkins

C) Ansible

D) JMeter

Answer: C) Ansible

11. Puppet and Chef are tools used for:

- A) Monitoring
- B) Configuration management
- C) Testing
- D) Containerization

Answer: B) Configuration management

12. Docker is mainly used for:

- A) Monitoring applications
- B) Managing virtual machines
- C) Running applications in containers
- D) Automating test cases

Answer: C) Running applications in containers

13. Kubernetes is best known for:

- A) Source code management
- B) Container orchestration
- C) Performance testing
- D) Version control

Answer: B) Container orchestration

14. Which tool is an open-source monitoring system?

- A) Prometheus
- B) Docker
- C) Bamboo
- D) Chef

Answer: A) Prometheus

15. Nagios is primarily used for:

- A) Code deployment
- B) Continuous integration
- C) Monitoring system health
- D) Version control

Answer: C) Monitoring system health

16. Which platform helps analyze machine-generated big data?

- A) Selenium
- B) Splunk
- C) Docker
- D) GitHub

Answer: B) Splunk

17. What does IaC stand for?

- A) Integration as Code
- B) Infrastructure as Code
- C) Information as Cloud

D) Infrastructure as Command

Answer: B) Infrastructure as Code

18. Which tool is used for provisioning and managing infrastructure declaratively?

A) Terraform

B) Appium

C) Nagios

D) Git

Answer: A) Terraform

19. Which tool is an AWS service for modeling and setting up resources?

A) CloudFormation

B) Jenkins

C) Bamboo

D) Prometheus

Answer: A) CloudFormation

20. Selenium is used for:

A) Load testing

B) Monitoring

C) Automating web browsers

D) Infrastructure management

Answer: C) Automating web browsers

IMPACT ANALYSIS

The one-day hands-on workshop on DEVOP'S Tool effectively enhanced participants' understanding of containerization fundamentals and practical skills in creating, running, and managing Devop's Tool. Aligned with program outcomes and course objectives, the workshop enabled learners to apply software engineering principles to solve real-world deployment challenges, thereby contributing to the automation needs of industries and society (PSO1). It also reinforced technical competencies relevant to fields like AI, Data Science, and Cloud Computing (PSO2). Through hands-on exercises, participants developed the ability to use essential Azure Devop's which fostered critical problem-solving, design, and research skills (PO1-PO5). Additionally, the workshop emphasized ethical considerations, sustainable development, and effective communication within multidisciplinary teams (PO6-PO10). Overall, the workshop provided a strong foundation for participants to integrate modern containerization tools into their professional practice, enhancing their career prospects and readiness for advanced education. Feedback indicated increased confidence and motivation to apply Devop's tool in real-world scenarios, demonstrating the workshop's success in achieving its learning goals and contributing positively to both individual and organizational growth.

Recommendation for further actions based on feedback and attainment calculation

1. As we got very good feedback in overall workshop experience that met students expectation, further more workshop we can arrange more relevant and current trend topics seminar
2. Since objective of the workshop is clearly defined and quality of delivered content is very good, we will arrange more workshops with the same resource person.
3. Since the hands-on practice session received a good rating, we consider enhancing the session in future workshops to make it more effective in improving students' ability by incorporating more advanced topics such as Jenkins, GitHub, Kubernetes and orchestration for container management.
4. With an overall attainment value of 3, it indicates a high level of achievement. Hence, we continue to monitor and evaluate the workshop's effectiveness to identify areas for further improvement.

Workshop End Report

Key Findings:

1. **Attainment Level:** The expected attainment level (3) of this workshop was achieved, with students demonstrating a good understanding of container deployment and management concepts.
2. **Program Outcomes (POs):** The workshop provided adequate support to the relevant POs, aligning with the expected level of attainment.
3. **Student Feedback:** Based on student feedback, this workshop is recommended for upcoming batches of students, with suggestions for minor improvements to enhance the learning experience.

Overall Assessment:

The workshop was successful in achieving its objectives, with students benefiting from the hands-on practice sessions and expert guidance. With some minor refinements, this workshop can continue to provide value to future students.
